Edgar, WI

Another year has come and gone. Over that year we have grown again in that we have added more satisfied customers to our client list. To help improve our return time we've added an additional eight wet processing drums and two more wet processing mills to our already extensive line of equipment.

Looking back to the year 2002, when I took over at the helm, we only tanned for a handful of taxidermists in Michigan. Today, after much hard work and dedication, we are now pushing nearly 3,000 taxidermists nationwide. I strongly believe that because of our commitment to quality, customer focus and turnaround time, we have now become the most sought after, highly respected, commercial tannery for taxidermists in the United States.

Your clients came to you because they trust you. Taxidermy is your expertise. They've invested in the hunt; some have traveled a great distance to collect that trophy of a lifetime and now it's in your hands. Put your trust in us, tanning is our expertise. From the very large to the very small animals we take pride in delivering to you a skin that not only looks and smells great, but will function for you the way you should expect. For your convenience we are U.S.D.A. approved to take in shipments on your behalf from across the globe at both our Reed City, MI and Helotes, TX facilities.

My staff and I wish you a prosperous 2015/2016 season. I hope all your dreams come true and may you be filled with abundance.

Thank you!

Mark Marlette
President

BLADE SHARPENING

**FLESHING MACHINES
10" & 12" MODELS**

REPAIRS

True-Cut Tool

Sales & Service

BLADE SHARPENING

We offer some of the best blade grinding on the planet. In this part of the business, we have grown exponentially. What used to be a small extension is now a full time forty hour per week operation.

BLADE SALES

If you're in need of new blades, you've come to the right place. Our blades are made of high carbon steel with alloying elements. This means they'll hold an edge longer and you won't need to spend more money replacing blades every few months.

FLESHING MACHINE SALES

Hands down, we have the best fleshing machine money can buy. In our tannery, we use these machines ten hours a day, five days per week. They never break down, period! Our top notch shavers have shaved everything from ermines to elephants on these machines. The guards are very easy to adjust and changing a blade is a breeze. New and in full swing is our 10" Easy Flesher. This machine is a scaled down version of our 12" Professional Series. For those of you that may be intimidated by the larger machine or just plain money conscious, this is the machine for you. Whether it's the 12" Professional Series or the 10" Easy Flesher, both are hand crafted by our skilled tradesmen. The machines are manufactured right here in our Michigan facility. We hold tight tolerances on the machining end of the process so you won't have premature wear on the internal components. Each machine is inspected and given a number before it leaves the facility.

FLESHING MACHINE REPAIR

In this department we receive those old worn out machines that you just don't want to part with. However, if the one you're using just isn't cutting it anymore, send it to us for an inspection and we'll give you a call with an estimate for repairs. We've repaired the Eager Beaver, Raw Hide, Québec and all of the Van Dyke models. Most of the time the repair work is much less than you would expect. Don't fight with it another year.

For more information on any of our products and services, please call 231-832-7002 or visit our website at: www.fleshingmachine.com

H&H Fur Dressing, Inc.

- Excellent Quality
- Wonderful Stretch
- Multiple Facilities
- U.S.D.A. Approved

WET TAN

We have an exceptional wet tan. Very stretchy, clean and has very little shrinkage when drying on the form. It will hold its shape and will not pull away from the eyes and detail you gave the form. This saves you time and frustration when finishing the mount. Try one and see for yourself how nice it is to work with. Note: Be sure to use a quality glue and always make sure you do a second day work over on your mounts.

DRY TAN

Our dry tan is very easy to use and rehydrates quickly. There is no reason to have to leave it in the rehydration bath for any longer than 20 minutes. Cool water, a handful of salt per two (2) capes in a sink or bucket and that's it. Just like our wet tan, it too has very little shrinkage and is very stretchy. Look for the complete instructions on rehydration in the back of this price list or visit our website at: www.furdressing.com

H&H Fur Dressing, Inc.

- Excellent Quality
- Wonderful Stretch
- Multiple Facilities
- U.S.D.A. Approved

TEXAS TANNING

For those clients that live in Texas and its bordering states, we accept both dry salted skins and green skins. At our Texas location we only provide a wet tan. Any skins that you prefer the dry tan on will be shipped to our Michigan facility. In peak seasons, we have a truck going to and from Texas every thirty days.

FLESHING AND SALTING SERVICE

With this service you can relax and just keep producing taxidermy. After all, that's why you got into this right? With our team of experienced skinners/fleshers you can sleep well at night knowing your frozen, green skins are being taken care of. We'll do the messy work, you get the glory. When your frozen skins arrive at H&H Fur Dressing, Inc. we lock that date in for you so you won't have to wait another 30, 45 or even 60 days longer to get your skins back. For more details call 231-832-7002 in Michigan or 210-695-8596 in Texas.

STORING TANNED SKINS

If you are not going to mount your skins within 6 months after receiving them from "any" tannery, we recommend rehydrating, prepping, measuring, label then bag and freeze.

DISTRIBUTION HUBS AND FACILITIES

We have three locations to help you out with freight cost.

Our Wisconsin hub acts as a fleshing and salting point as well as a hub for our truck to pick up any skin whether full service was performed or the skins arrived already salt dried. Our Texas facility serves as a fleshing and salting, wet tanning and distribution location. Our Michigan facility is our headquarters.

MICHIGAN

At our Reed City location we receive hundreds of skins each day during the fall and winter months. Here we offer a synthetic tan. You have your choice of either a wet tan or dry tan. We also offer fleshing and salting of your frozen skins. Located on the grounds is our tooling company True-Cut Tool, Inc. We manufacture the S&S Fleshing Machine, sharpen your dull blades, sell new blades and rebuild worn out fleshing machines. 5704 220th Ave, Reed City, MI 49677 | Phone: 231.832.7002

TEXAS

At our Helotes facility we receive frozen skins for fleshing, salting and wet tanning. We offer a pickup and delivery service to our Texas clients. Also, we are a receiving facility for overseas shipments and distributing skins to and from our Michigan facility. Every thirty days our truck makes its run down to Texas picking up loads of skins for dry tanning in Reed City. 20145 Bandera Rd #3, Helotes, TX 78023 | Phone: 210.695.8596

WISCONSIN

At our Edgar location we receive frozen and dry salted skins. Speedy is the preferred carrier to get your skins to our Edgar location. After your skins have been fleshed, salted and dried. They will be boxed and ready for transit in one of our trucks to our Michigan facility for processing. During the fall and winter months this will be every thirty days starting in October.

TERMS & CONDITIONS

Due to the many variables of Mother Nature and Wildlife, including health of the animal, weather, prime conditions of the skin or improper handling of some furs, **ALL TANNING IS DONE AT OWNER'S RISK.** H&H Wildlife Design and Fur Dressing, Inc., its owners and/or employees, will not be held responsible for any loss while in transit or any damage of skins or other items due to theft, fire, vandalism, mechanical, flood or other circumstances or acts of God. **Tanning is accepted under these conditions only.**

For each shipment enclose a packing list detailing the following:

- **Company Name**
- **Full address, telephone number and email address if available**
- **Taxidermist License Number (if required in your state)**
- **Customer Number if you are an existing customer, if not, a number will be assigned to you.**
- **Complete inventory of skins sent**
- **If frozen be sure to write FROZEN or PERISHABLE on each box**
- **If you want a Wet Tan be sure to specify otherwise your skin will be processed as a dry tan.**

Once your shipment is received and checked in you'll be sent an acknowledgement of receipt of your skins. If there are any discrepancies please notify us immediately.

Shipping/Insurance

We ship through various commercial carriers as well as our own trucks. The responsibility for the shipment passes to you, the buyer, as soon as it is loaded on a truck. We do not add insurance to any shipment. If you would like insurance on your shipment you must request it each time. You are responsible for stating the value you want placed on each shipment along with the cost of the insurance. This added cost must be paid for prior to shipping. If a claim arises and you purchased shipping insurance you will need to deal directly with the insurance carrier on the claim. Be sure to inform your customers of this policy prior to sending in their skins.

PAYMENT POLICIES

All invoices are due upon receipt and must be paid in full prior to shipment.

We accept Visa and Mastercard.

Once established, company and personal checks will be accepted. All new customers Must pay by credit card, cashier's check or money order. Otherwise we will hold the Shipment until the payment clears the bank.

All wet tan orders require a credit card on file so that we may ship immediately after completion.

A fee of \$39.00 will be assessed on all returned checks.

Any invoice not paid within 30 days will be assessed a \$35.00 per month fee.

Any skins not paid for within 90 days of invoice date may become property of H&H Fur Dressing, Inc. and may be sold.

SERVICE CHARGES

50% extra charge on inadequately prepared skins.

50% extra charge for rush services.

15% Charge of the total cost for skins that are deemed rejected after they have gone through the wetting back and/or pickling process.

\$15.00 extra charge for excessively long deer capes. (ie. Pedestal mount)

15% extra charge for all other species with exceptionally long capes.

Hides with heads will be charged as a life size minus the cost of the legs.

Excessive grooming—ie. Manure, burrs, etc. You will be contacted and given a cost. Note: Some species of sheep will not be groomed

Return shipping insurance is not added unless specifically requested for and paid for by customer.

All African shipments are subject to a \$50.00 USDA handling fee plus a \$25.00 charge for boiling per skull for swine and primates.

There will be a \$10.00 charge for each additional contaminated skull and a \$10.00 disposal fee.

REHYDRATION INSTRUCTIONS

When relaxing skins, add 4 oz. of salt, or one handful per gallon of water. This will reduce the risk of acid swell.

Capes and Small Mammals - Submerge head in cool water for 20 minutes; Submerge remainder of skin for an additional 10 minutes. Remove skins, drain well, cover with plastic and let them sit overnight at room temperature.

Life Size Skins - Submerge head and feet in water for 20 minutes and then submerge remaining skin for an additional 10 minutes. Remove skins, drain well, cover with plastic and let them sit overnight at room temperature.

Bear Rugs - Submerge head and feet in water for 20 minutes. Pull out and sponge the remainder of the skins, cover with plastic and sweat overnight.

WITH WET TANNING:

Thaw at room temperature.
